

SUBCHAPTER H—RIGHT-OF-WAY AND ENVIRONMENT

PART 710—RIGHT-OF-WAY AND REAL ESTATE

Subpart A—General

- Sec.
710.101 Purpose.
710.103 Applicability.
710.105 Definitions.

Subpart B—Program Administration

- 710.201 State responsibilities.
710.203 Funding and reimbursement.

Subpart C—Project Development

- 710.301 General.
710.303 Planning.
710.305 Environmental analysis.
710.307 Project agreement.
710.309 Acquisition.
710.311 Construction advertising.
710.313 Design-build projects.

Subpart D—Real Property Management

- 710.401 General.
710.403 Management.
710.405 Air rights on the Interstate.
710.407 Leasing.
710.409 Disposals.

Subpart E—Property Acquisition Alternatives

- 710.501 Early acquisition.
710.503 Protective buying and hardship acquisition.
710.505 Real property donations.
710.507 State and local contributions.
710.509 Functional replacement of real property in public ownership.
710.511 Transportation enhancements.
710.513 Environmental mitigation.

Subpart F—Federal Assistance Programs

- 710.601 Federal land transfer.
710.603 Direct Federal acquisition.

AUTHORITY: Sec. 1307, Pub. L. 105-178, 112 Stat. 107; 23 U.S.C. 101(a), 107, 108, 111, 114, 133, 142(f), 156, 204, 210, 308, 315, 317, and 323; 42 U.S.C. 2000d *et seq.*, 4633, 4651-4655; 49 CFR 1.48(b) and (cc), 18.31, and parts 21 and 24; 23 CFR 1.32.

SOURCE: 64 FR 71290, Dec. 21, 1999, unless otherwise noted.

Subpart A—General

§ 710.101 Purpose.

The primary purpose of the requirements in this part is to ensure the prudent use of Federal funds under title 23 of the United States Code in the acquisition, management, and disposal of real property. In addition to the requirements of this part, other real property related provisions apply and are found at 49 CFR part 24.

§ 710.103 Applicability.

This part applies whenever Federal assistance under title 23 of the United States Code is used. The part applies to programs administered by the Federal Highway Administration. Where Federal funds are transferred to other Federal agencies to administer, those agencies' procedures may be utilized. Additional guidance is available electronically at the FHWA Real Estate services website: <http://www.fhwa.dot.gov/realestate/index.htm>

§ 710.105 Definitions.

(a) Terms defined in 49 CFR part 24, and 23 CFR part 1 have the same meaning where used in this part, except as modified in this section.

(b) The following terms where used in this part have the following meaning:

Access rights means the right of ingress to and egress from a property that abuts a street or highway.

Acquiring agency means a State agency, other entity, or person acquiring real property for title 23 of the United States Code purposes.

Acquisition means activities to obtain an interest in, and possession of, real property.

Air rights means real property interests defined by agreement, and conveyed by deed, lease, or permit for the use of airspace.

Airspace means that space located above and/or below a highway or other transportation facility's established grade line, lying within the horizontal limits of the approved right-of-way or project boundaries.

Damages means the loss in value attributable to remainder property due to severance or consequential damages, as limited by State law, that arise when only part of an owner's property is acquired.

Disposal means the sale of real property or rights therein, including access or air rights, when no longer needed for highway right-of-way or other uses eligible for funding under title 23 of the United States Code.

Donation means the voluntary transfer of privately owned real property for the benefit of a public transportation project without compensation or with compensation at less than fair market value.

Early acquisition means acquisition of real property by State or local governments in advance of Federal authorization or agreement.

Easement means an interest in real property that conveys a right to use a portion of an owner's property or a portion of an owner's rights in the property.

NHS means the National Highway System as defined in 23 U.S.C. 103(b).

Oversight agreement means the project approval and agreement concluded between the State and the FHWA to outline which projects will be monitored at the plans, specifications, and estimate stage by FHWA as required by 23 U.S.C. 106(c)(3).

Real property means land and any improvements thereto, including but not limited to, fee interests, easements, air or access rights, and the rights to control use, leasehold, and leased fee interests.

Relinquishment means the conveyance of a portion of a highway right-of-way or facility by a State highway department to another government agency for continued transportation use. (See 23 CFR part 620, subpart B.)

Right-of-way means real property and rights therein used for the construction, operation, or maintenance of a transportation or related facility funded under title 23 of the United States Code.

Settlement means the result of negotiations based on fair market value in which the amount of just compensation is agreed upon for the purchase of real

property or an interest therein. This term includes the following:

(1) An *administrative settlement* is a settlement reached prior to filing a condemnation proceeding based on value related evidence, administrative consideration, or other factors approved by an authorized agency official.

(2) A *legal settlement* is a settlement reached by a responsible State legal representative after filing a condemnation proceeding, including stipulated settlements approved by the court in which the condemnation action had been filed.

(3) A *court settlement or court award* is any decision by a court that follows a contested trial or hearing before a jury, commission, judge, or other legal entity having the authority to establish the amount of compensation for a taking under the laws of eminent domain.

State agency means a department, agency, or instrumentality of a State or of a political subdivision of a State; any department, agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States; or any person who has the authority to acquire property by eminent domain, for public purposes, under State law.

State transportation department (STD) means the State highway department, transportation department, or other State transportation agency or commission to which title 23 of the United States Code funds are apportioned.

Uneconomic remnant means a remainder property which the acquiring agency has determined has little or no utility or value to the owner.

Uniform Act means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Public Law 91-646, 84 Stat. 1894), and the implementing regulations at 49 CFR part 24.

Subpart B—Program Administration

§ 710.201 State responsibilities.

(a) *Organization*. Each STD shall be adequately staffed, equipped, and organized to discharge its real property-related responsibilities.

(b) *Program oversight.* The STD shall have overall responsibility for the acquisition, management, and disposal of real property on Federal-aid projects. This responsibility shall include assuring that acquisitions and disposals by a State agency are made in compliance with legal requirements of State and Federal laws and regulations.

(c) *Right-of-way (ROW) operations manual.* Each STD which receives funding from the highway trust fund shall maintain a manual describing its right-of-way organization, policies, and procedures. The manual shall describe functions and procedures for all phases of the real estate program, including appraisal and appraisal review, negotiation and eminent domain, property management, and relocation assistance. The manual shall also specify procedures to prevent conflict of interest and avoid fraud, waste, and abuse. The manual shall be in sufficient detail and depth to guide State employees and others involved in acquiring and managing real property. The State manuals should be developed and updated, as a minimum, to meet the following schedule:

(1) The STD shall prepare and submit for approval by FHWA an up-to-date Right-of-Way Operations Manual by no later than January 1, 2001.

(2) Every five years thereafter, the chief administrative officer of the STD shall certify to the FHWA that the current ROW operations manual conforms to existing practices and contains necessary procedures to ensure compliance with Federal and State real estate law and regulation.

(3) The STD shall update the manual periodically to reflect changes in operations and submit the updated materials for approval by the FHWA.

(d) *Compliance responsibility.* The STD is responsible for complying with current FHWA requirements whether or not its manual reflects those requirements.

(e) *Adequacy of real property interest.* The real property interest acquired for all Federal-aid projects funded pursuant to title 23 of the United States Code shall be adequate for the construction, operation, and maintenance of the resulting facility and for the

protection of both the facility and the traveling public.

(f) *Recordkeeping.* The acquiring agency shall maintain adequate records of its acquisition and property management activities.

(1) Acquisition records, including records related to owner or tenant displacements, and property inventories of improvements acquired shall be in sufficient detail to demonstrate compliance with this part and 49 CFR part 24. These records shall be retained at least 3 years from either:

(i) The date the State receives Federal reimbursement of the final payment made to each owner of a property and to each person displaced from a property, or

(ii) The date a credit toward the Federal share of a project is approved based on early acquisition activities of the State.

(2) Property management records shall include inventories of real property considered excess to project needs, all authorized uses of airspace, and other leases or agreements for use of real property managed by the STD.

(g) *Procurement.* Contracting for all activities required in support of State right-of-way programs through use of private consultants and other services shall conform to 49 CFR 18.36.

(h) *Use of other public land acquisition organizations or private consultants.* The STD may enter into written agreements with other State, county, municipal, or local public land acquisition organizations or with private consultants to carry out its authorities under paragraph (b) of this section. Such organizations, firms, or individuals must comply with the policies and practices of the STD. The STD shall monitor any such real property acquisition activities to assure compliance with State and Federal law and requirements and is responsible for informing such organizations of all such requirements and for imposing sanctions in cases of material non-compliance.

(i) *Approval actions.* Except for the Interstate system, the STD and the FHWA will agree on the scope of property related oversight and approval actions that the FHWA will be responsible for under this part. The content of the most recent oversight agreement

shall be reflected in the State right-of-way operations manual. The oversight agreement, and thus the manual, will indicate for which non-Interstate Federal-aid project submission of materials for review and approval are required.

(j) *Approval of just compensation.* The amount determined to be just compensation shall be approved by a responsible official of the acquiring agency.

(k) *Description of acquisition process.* The STD shall provide persons affected by projects or acquisitions advanced under title 23 of the United States Code with a written description of its real property acquisition process under State law and of the owner's rights, privileges, and obligations. The description shall be written in clear, non-technical language and, where appropriate, be available in a language other than English.

§ 710.203 Funding and reimbursement.

(a) *General conditions.* The following conditions are a prerequisite to Federal participation in the costs of acquiring real property except as provided in § 710.501 for early acquisition:

(1) The project for which the real property is acquired is included in an approved Statewide Transportation Improvement Program (STIP);

(2) The State has executed a project agreement;

(3) Preliminary acquisition activities, including a title search and preliminary property map preparation necessary for the completion of the environmental process, can be advanced under preliminary engineering prior to National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*) clearance, while other work involving contact with affected property owners must normally be deferred until after NEPA approval, except as provided in 23 CFR 710.503 for protective buying and hardship acquisition; and in 23 CFR 710.501, early acquisition. Appraisal completion may be authorized as preliminary right-of-way activity prior to completion of the environmental document; and

(4) Costs have been incurred in conformance with State and Federal law requirements.

(b) *Direct eligible costs.* Federal participation in real property costs is limited to the costs of property incorporated into the final project and the associated direct costs of acquisition, unless provided otherwise. Participation is provided for:

(1) *Real property acquisition.* Usual costs and disbursements associated with real property acquisition required under the laws of the State, including the following:

(i) The cost of contracting for private acquisition services or the cost associated with the use of local public agencies.

(ii) The cost of acquisition activities, such as, appraisal, appraisal review, cost estimates, relocation planning, right-of-way plan preparation, title work, and similar necessary right-of-way related work.

(iii) The cost to acquire real property, including incidental expenses.

(iv) The cost of administrative settlements in accordance with 49 CFR 24.102(i), legal settlements, court awards, and costs incidental to the condemnation process.

(v) The cost of minimum payments and appraisal waiver amounts included in the State approved manual.

(2) *Relocation assistance and payments.* Usual costs and disbursements associated with the following:

(i) Relocation assistance and payments required under 49 CFR part 24, and

(ii) Relocation assistance and payments provided under the laws of the State that may exceed the requirements of 49 CFR part 24, except for relocation assistance and payments provided to aliens not lawfully present in the United States.

(3) *Damages.* The cost of severance and/or consequential damages to remaining real property resulting from a partial acquisition, actual or constructive, of real property for a project based on elements compensable under applicable State law.

(4) *Property management.* The net cost of managing real property prior to and during construction to provide for maintenance, protection, and the clearance and disposal of improvements until final project acceptance.

§710.301

(5) *Payroll-related expenses and technical guidance.* Salary and related expenses of employees of an acquiring agency are eligible costs in accordance with OMB Circular A-87 (available at <http://www.whitehouse.gov/omb/circulars>). This includes State costs incurred for managing or providing technical guidance, consultation or oversight on projects where right-of-way services are performed by a political subdivision or others.

(6) *Property not incorporated into a project funded under title 23 of the United States Code.* The cost of property not incorporated into a project may be eligible for reimbursement in the following circumstances:

(i) *General.* Costs for construction material sites, property acquisitions to a logical boundary, or for eligible transportation enhancement, sites for disposal of hazardous materials, environmental mitigation, environmental banking activities, or last resort housing.

(ii) *Easements not incorporated into the right-of-way.* The cost of acquiring easements outside the right-of-way for permanent or temporary use.

(7) *Uneconomic remnants.* The cost of uneconomic remnants purchased in connection with the acquisition of a partial taking for the project as required by the Uniform Act.

(8) *Access rights.* Payment for full or partial control of access on an existing highway (*i.e.*, one not on a new location), based on elements compensable under applicable State law. Participation does not depend on another real property interest being acquired or on further construction of the highway facility.

(9) *Utility and railroad property.* (i) The cost to replace operating real property owned by a displaced utility or railroad and conveyed to an STD for a highway project, as provided in 23 CFR part 140, subpart I, Reimbursement for Railroad Work, and 23 CFR part 645, Subpart A, Utility Relocations, Adjustments and Reimbursement, and 23 CFR part 646, Subpart B, Railroad-Highway Projects.

(ii) Participation in the cost of acquiring non-operating utility or railroad real property shall be in the same

23 CFR Ch. I (4-1-03 Edition)

manner as that used in the acquisition of other privately owned property.

(c) *Withholding payment.* The FHWA may withhold payment under the conditions in 23 CFR 1.36 where the State fails to comply with Federal law or regulation, State law, or under circumstances of waste, fraud, and abuse.

(d) *Indirect costs.* Indirect costs may be claimed under the provisions of OMB Circular A-87. Indirect costs may be included on Federal-aid billings after the indirect cost rate has been approved by FHWA.

[64 FR 71290, Dec. 21, 1999, as amended at 67 FR 12863, Mar. 20, 2002]

Subpart C—Project Development

§710.301 General.

The project development process typically follows a sequence of actions and approvals in order to qualify for funding. The key steps in this process are provided in this subpart.

§710.303 Planning.

State and local governments conduct metropolitan and statewide planning to develop coordinated, financially constrained system plans to meet transportation needs for local and statewide systems, under FHWA's planning regulations contained in 23 CFR part 450. In addition, air quality non-attainment areas must meet the requirements of the U.S. EPA Transportation conformity regulations (40 CFR parts 51 and 93). Projects must be included in an approved State Transportation Improvement Program (STIP) in order to be eligible for Federal-aid funding.

§710.305 Environmental analysis.

The National Environmental Policy Act (NEPA) process, as described in FHWA's NEPA regulations in 23 CFR part 771, normally must be conducted and concluded with a record of decision (ROD) or equivalent before Federal funds can be placed under agreement for acquisition of right-of-way. Where applicable, a State also must complete Clean Air Act (42 U.S.C. 7401 *et seq.*) project level conformity analysis. In

Federal Highway Administration, DOT

§ 710.313

areas in which the Clean Air Act conformity determination has lapsed, acquiring agencies must coordinate with Federal Highway Administration for special instructions prior to initiating new projects or continuing activity on existing projects. At the time of processing an environmental document, a State may request reimbursement of costs incurred for early acquisition, provided conditions prescribed in 23 U.S.C. 108(c) and 23 CFR 710.501, are satisfied.

§ 710.307 Project agreement.

As a condition of Federal-aid, the STD shall obtain FHWA authorization in writing or electronically before proceeding with any real property acquisitions, including hardship acquisition and protective buying (see 23 CFR 710.503). The STD must prepare a project agreement in accordance with 23 CFR part 630, subpart C. The agreement shall be based on an acceptable estimate for the cost of acquisition. On projects where the initial project agreement was executed after June 9, 1998, a State may request credit toward the non-Federal share, for early acquisitions, donations, or other contributions applied to the project provided conditions in 23 U.S.C. 323 and 23 CFR 710.501, are satisfied.

§ 710.309 Acquisition.

The process of acquiring real property includes appraisal, appraisal review, establishing just compensation, negotiations, administrative and legal settlements, and condemnation. The State shall conduct acquisition and related relocation activities in accordance with 49 CFR part 24.

§ 710.311 Construction advertising.

The State must manage real property acquired for a project until it is required for construction. Clearance of improvements can be scheduled during the acquisition phase of the project using sale/removal agreements, separate demolition contracts, or be included as a work item in the construction contract. On Interstate projects, prior to advertising for construction, the State shall develop ROW availability statements and certifications related to project acquisitions as re-

quired by 23 CFR 635.309. For non-Interstate projects, the oversight agreement must specify responsibility for the review and approval of the ROW availability statements and certifications. Generally, for non-NHS projects, the State has full responsibility for determining that right-of-way is available for construction.

§ 710.313 Design-build projects.

(a) In the case of a design-build project, right-of-way must be acquired and cleared in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and STD right-of-way procedures. The STD shall submit a right-of-way certification in accordance with 23 CFR 635.309(p) when requesting FHWA's authorization. If the right-of-way services are included in the Request for Proposal document, the STD shall ensure that right-of-way is available prior to the start of physical construction on individual properties.

(b) The decision to advance a right-of-way segment to the construction stage shall not impair the safety or in anyway be coercive in the context of 49 CFR 24.102(h) with respect to unacquired or occupied properties on the same or adjacent segments of project right-of-way.

(c) Certain right-of-way acquisition and clearance services may be incorporated into the design-build contract if allowed under State law. The contract may include language that provides that construction will not commence until all property is acquired and relocations have been completed; or, the construction could be phased or segmented to allow right-of-way activities to be completed on individual properties or a group of properties, thereby allowing certification in a manner satisfactory to the STD for each phase or segment.

(d) If the STD elects to include right-of-way services in the design-build contract, the following provisions must be addressed in the request for proposals document:

(1)(i) The design-builder must submit written acquisition and relocation procedures to the STD for approval prior to commencing right-of-way activities.

§ 710.401

23 CFR Ch. I (4–1–03 Edition)

These procedures should contain a prioritized appraisal, acquisition, and relocation strategy as well as check points for STD approval, such as approval of just compensation, replacement housing payment calculations, replacement housing payment and moving cost claims, appraisals, administrative and stipulated settlements that exceed determined thresholds based on a risk management analysis, etc. STD's which have an FHWA approved procedures manual, in accordance with 23 CFR 710.201(c), may comply with this section by requiring the design-builder to execute a certification in its proposal that it has received the approved right-of-way manual and will comply with the procedures.

(ii) The written relocation plan must provide reasonable time frames for the orderly relocation of residents and businesses on the project as provided at 49 CFR 24.205. It should be understood that these time frames will be based on best estimates of the time it will take to acquire the right-of-way and relocate families in accordance with certain legal requirements and time frames which may not be violated. Accordingly, the time frames estimated for right-of-way acquisition will not be compressed in the event other necessary actions preceding right-of-way acquisition miss their assigned due dates.

(2)(i) The design-builder must establish a project tracking system and quality control system. This system must show the appraisal, acquisition and relocation status of all parcels.

(ii) The quality control system may be administered by an independent consultant with the necessary expertise in appraisal, acquisition and relocation policies and procedures, who can make periodic reviews and reports to the design-builder and the STD.

(3) The STD may consider the establishment of a hold off zone around all occupied properties to ensure compliance with right-of-way procedures prior to starting construction activities in affected areas. The limits of this zone should be established by the STD prior to the design-builder entering on the property. There should be no construction related activity within the

hold off zone until the property is vacated. The design-builder must have written notification of vacancy from the right-of-way quality control consultant or STD prior to entering the hold off zone.

(4) Adequate access shall be provided to all occupied properties to insure emergency and personal vehicle access.

(5) Utility service must be available to all occupied properties at all times prior to and until relocation is completed.

(6) Open burning should not occur within 305 meters (1,000 feet) of an occupied dwelling.

(7) The STD will provide a right-of-way project manager who will serve as the first point of contact for all right-of-way issues.

(e) If the STD elects to perform all right-of-way services relating to the design-build contract, the provisions in § 710.311 will apply. The STD will notify potential offerors of the status of all right-of-way issues in the request for proposal document.

[67 FR 75935, Dec. 10, 2002]

Subpart D—Real Property Management

§ 710.401 General.

This subpart describes the acquiring agency's responsibilities to control the use of real property required for a project in which Federal funds participated in any phase of the project. Prior to allowing any change in access control or other use or occupancy of acquired property along the Interstate, the STD shall secure an approval from the FHWA for such change or use. The STD shall specify in the State's ROW operations manual, procedures for the rental, leasing, maintenance, and disposal of real property acquired with title 23 of the United States Code funds. The State shall assure that local agencies follow the State's approved procedures, or the local agencies own procedures if approved for use by the STD.

§ 710.403 Management.

(a) The STD must assure that all real property within the boundaries of a

federally-aided facility is devoted exclusively to the purposes of that facility and is preserved free of all other public or private alternative uses, unless such alternative uses are permitted by Federal regulation or the FHWA. An alternative use must be consistent with the continued operation, maintenance, and safety of the facility, and such use shall not result in the exposure of the facility's users or others to hazards.

(b) The STD shall specify procedures in the State manual for determining when a real property interest is no longer needed. These procedures must provide for coordination among relevant STD organizational units, including maintenance, safety, design, planning, right-of-way, environment, access management, and traffic operations.

(c) The STD shall evaluate the environmental effects of disposal and leasing actions requiring FHWA approval as provided in 23 CFR part 771.

(d) Acquiring agencies shall charge current fair market value or rent for the use or disposal of real property interests, including access control, if those real property interests were obtained with title 23 of the United States Code funding, except as provided in paragraphs (d) (1) through (5) of this section. Since property no longer needed for a project was acquired with public funding, the principle guiding disposal would normally be to sell the property at fair market value and use the funds for transportation purposes. The term fair market value as used for acquisition and disposal purposes is as defined by State statute and/or State court decisions. Exceptions to the general requirement for charging fair market value may be approved in the following situations:

(1) With FHWA approval, when the STD clearly shows that an exception is in the overall public interest for social, environmental, or economic purposes; nonproprietary governmental use; or uses under 23 U.S.C. 142(f), Public Transportation. The STD manual may include criteria for evaluating disposals at less than fair market value. Disposal for public purposes may also be at fair market value. The STD shall

submit requests for such exceptions to the FHWA in writing.

(2) Use by public utilities in accordance with 23 CFR part 645.

(3) Use by Railroads in accordance with 23 CFR part 646.

(4) Use for Bikeways and pedestrian walkways in accordance with 23 CFR part 652.

(5) Use for transportation projects eligible for assistance under title 23 of the United States Code.

(e) The Federal share of net income from the sale or lease of excess real property shall be used by the STD for activities eligible for funding under title 23 of the United States Code. Where project income derived from the sale or lease of excess property is used for subsequent title 23 projects, use of the income does not create a Federal-aid project.

(f) No FHWA approval is required for disposal of property which is located outside of the limits of the right-of-way if Federal funds did not participate in the acquisition cost of the property.

(g) Highway facilities in which Federal funds participated in either the right-of-way or construction may be relinquished to another governmental agency for continued highway use under the provisions of 23 CFR 620, subpart B.

§ 710.405 Air rights on the Interstate.

(a) The FHWA policies relating to management of airspace on the Interstate for non-highway purposes are included in this section. Although this section deals specifically with approval actions on the Interstate, any use of airspace contemplated by a STD must assure that such occupancy, use, or reservation is in the public interest and does not impair the highway or interfere with the free and safe flow of traffic as provided in 23 CFR 1.23.

(1) This subpart applies to Interstate facilities which received title 23 of the United States Code assistance in any way.

(2) This subpart does not apply to the following:

(i) Non-Interstate highways.

(ii) Railroads and public utilities which cross or otherwise occupy Federal-aid highway right-of-way.

§ 710.407

(iii) Relocations of railroads or utilities for which reimbursement is claimed under 23 CFR part 140, subparts E and H.

(iv) Bikeways and pedestrian walkways as covered in 23 CFR part 652.

(b) A STD may grant rights for temporary or permanent occupancy or use of Interstate system airspace if the STD has acquired sufficient legal right, title, and interest in the right-of-way of a federally assisted highway to permit the use of certain airspace for non-highway purposes; and where such airspace is not required presently or in the foreseeable future for the safe and proper operation and maintenance of the highway facility. The STD must obtain prior FHWA approval, except for paragraph (c) of this section.

(c) An STD may make lands and rights-of-way available without charge to a publicly owned mass transit authority for public transit purposes whenever the public interest will be served, and where this can be accomplished without impairing automotive safety or future highway improvements.

(d) An individual, company, organization, or public agency desiring to use airspace shall submit a written request to the STD. If the STD recommends approval, it shall forward an application together with its recommendation and any necessary supplemental information including the proposed airspace agreement to the FHWA. The submission shall affirmatively provide for adherence to all policy requirements contained in this subpart and conform to the provisions in the FHWA's Airspace Guidelines at: <http://www.fhwa.dot.gov/realestate/index.htm>.

§ 710.407 Leasing.

(a) Leasing of real property acquired with title 23 of the United States Code, funds shall be covered by an agreement between the STD and lessee which contains provisions to insure the safety and integrity of the federally funded facility. It shall also include provisions governing lease revocation, removal of improvements at no cost to the FHWA, adequate insurance to hold the State and the FHWA harmless, non-discrimination, access by the STD and the FHWA for inspection, maintenance, and reconstruction of the facility.

23 CFR Ch. I (4-1-03 Edition)

(b) Where a proposed use requires changes in the existing transportation facility, such changes shall be provided without cost to Federal funds unless otherwise specifically agreed to by the STD and the FHWA.

(c) Proposed uses of real property shall conform to the current design standards and safety criteria of the Federal Highway Administration for the functional classification of the highway facility in which the property is located.

§ 710.409 Disposals.

(a) Real property interests determined to be excess to transportation needs may be sold or conveyed to a public entity or to a private party in accordance with § 710.403(d).

(b) Federal, State, and local agencies shall be afforded the opportunity to acquire real property interests considered for disposal when such real property interests have potential use for parks, conservation, recreation, or related purposes, and when such a transfer is allowed by State law. When this potential exists, the STD shall notify the appropriate resource agencies of its intentions to dispose of the real property interests. The notifications can be accomplished by placing the appropriate agencies on the States' disposal notification listing.

(c) Real property interests may be retained by the STD to restore, preserve, or improve the scenic beauty and environmental quality adjacent to the transportation facility.

(d) Where the transfer of properties to other agencies at less than fair market value for continued public use is clearly justified as in the public interest and approved by the FHWA, the deed shall provide for reversion of the property for failure to continue public ownership and use. Where property is sold at fair market value no reversion clause is required. Disposal actions described in 23 CFR 710.403(d)(1) for less than fair market value require a public interest determination and FHWA approval, consistent with that section.

[64 FR 71290, Dec. 21, 1999, as amended at 67 FR 12863, Mar. 20, 2002]

Subpart E—Property Acquisition Alternatives

§ 710.501 Early acquisition.

(a) *Real property acquisition.* The State may initiate acquisition of real property at any time it has the legal authority to do so based on program or project considerations. The State may undertake early acquisition for corridor preservation, access management, or other purposes.

(b) *Eligible costs.* Acquisition costs incurred by a State agency prior to executing a project agreement with the FHWA are not eligible for Federal-aid reimbursement. However, such costs may become eligible for use as a credit towards the State's share of a Federal-aid project if the following conditions are met:

(1) The property was lawfully obtained by the State;

(2) The property was not land described in 23 U.S.C. 138;

(3) The property was acquired in accordance with the provisions of 49 CFR part 24;

(4) The State complied with the requirements of title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-2000d-4);

(5) The State determined and the FHWA concurs that the action taken did not influence the environmental assessment for the project, including:

(i) The decision on need to construct the project;

(ii) The consideration of alternatives; and

(iii) The selection of the design or location; and

(6) The property will be incorporated into a Federal-aid project.

(7) The original project agreement covering the project was executed on or after June 9, 1998.

(c) *Reimbursement.* In addition to meeting all provisions in paragraph (b) of this section, the FHWA approval for reimbursement for early acquisition costs, including costs associated with displacement of owners or tenants, requires the STD to demonstrate that:

(1) Prior to acquisition, the STD made the certifications and determinations required by 23 U.S.C. 108(c)(2)(C) and (D); and

(2) The STD obtained concurrence from the Environmental Protection Agency in the findings made under paragraph (b)(5) of this section regarding the NEPA process.

§ 710.503 Protective buying and hardship acquisition.

(a) *General conditions.* Prior to the STD obtaining final environmental approval, the STD may request FHWA agreement to provide reimbursement for advance acquisition of a particular parcel or a limited number of parcels, to prevent imminent development and increased costs on the preferred location (Protective Buying), or to alleviate hardship to a property owner or owners on the preferred location (Hardship Acquisition), provided the following conditions are met:

(1) The project is included in the currently approved STIP;

(2) The STD has complied with applicable public involvement requirements in 23 CFR parts 450 and 771;

(3) A determination has been completed for any property subject to the provisions of 23 U.S.C. 138; and

(4) Procedures of the Advisory Council on Historic Preservation are completed for properties subject to 16 U.S.C. 470(f) (historic properties).

(b) *Protective buying.* The STD must clearly demonstrate that development of the property is imminent and such development would limit future transportation choices. A significant increase in cost may be considered as an element justifying a protective purchase.

(c) *Hardship acquisitions.* The STD must accept and concur in a request for a hardship acquisition based on a property owner's written submission that:

(1) Supports the hardship acquisition by providing justification, on the basis of health, safety or financial reasons, that remaining in the property poses an undue hardship compared to others; and

(2) Documents an inability to sell the property because of the impending project, at fair market value, within a time period that is typical for properties not impacted by the impending project.

(d) *Environmental decisions.* Acquisition of property under this section

§ 710.505

shall not influence the environmental assessment of a project, including the decision relative to the need to construct the project or the selection of a specific location.

§ 710.505 Real property donations.

(a) *Donations of property being acquired.* A non-governmental owner whose real property is required for a Federal-aid project may donate the property to the STD. Prior to accepting the property, the owner must be informed by the agency of his/her right to receive just compensation for the property. The owner shall also be informed of his/her right to an appraisal of the property by a qualified appraiser, unless the STD determines that an appraisal is unnecessary because the valuation problem is uncomplicated and the fair market value is estimated at no more than \$2500, or the State appraisal waiver limit approved by the FHWA, whichever is greater. All donations of property received prior to the approval of the NEPA document must meet environmental requirements as specified in 23 U.S.C. 323(d).

(b) *Credit for donations.* Donations of real property may be credited to the State's matching share of the project. Credit to the State's matching share for donated property shall be based on fair market value established on the earlier of the following: either the date on which the donation becomes effective, or the date on which equitable title to the property vests in the State. The fair market value shall not include increases or decreases in value caused by the project. Donations may be made at anytime during the development of a project. The STD shall develop sufficient documentation to indicate compliance with paragraph (a) of this section and to support the amount of credit applied. The total credit cannot exceed the State's pro-rata share under the project agreement to which it is applied.

(c) *Donations and conveyances in exchange for construction features or services.* A property owner may donate property in exchange for construction features or services. The value of the donation is limited to the fair market value of property donated less the cost

23 CFR Ch. I (4-1-03 Edition)

of the construction features or services. If the value of the donated property exceeds the cost of the construction features or services, the difference may be eligible for a credit to the State's share of project costs.

§ 710.507 State and local contributions.

(a) *General.* Real property owned by State and local governments incorporated within a federally funded project can be used as a credit toward the State matching share of total project cost. A credit cannot exceed the State's matching share required by the project agreement.

(b) *Effective date.* Credits can be applied to projects where the initial project agreement is executed after June 9, 1998.

(c) *Exemptions.* Credits are not available for lands acquired with any form of Federal financial assistance, or for lands already incorporated and used for transportation purposes.

(d) *State contributions.* Real property acquired with State funds and required for federally-assisted projects may support a credit toward the non-Federal share of project costs. The STD must prepare documentation supporting all credits including:

(1) A certification that the acquisition satisfied the conditions in 23 CFR 710.501(b); and

(2) Justification of the value of credit applied. Acquisition costs incurred by the State to acquire title can be used as justification for the value of the real property.

(e) *Credit for local government contributions.* A contribution by a unit of local government of real property which is offered for credit, in connection with a project eligible for assistance under this title, shall be credited against the State share of the project at fair market value of the real property. Property may also be presented for project use with the understanding that no credit for its use is sought. The STD shall assure that the acquisition satisfied the conditions in 23 CFR 710.501(b), and that documentation justifies the amount of the credit.

§ 710.509 Functional replacement of real property in public ownership.

(a) *General.* When publicly owned real property, including land and/or facilities, is to be acquired for a Federal-aid highway project, in lieu of paying the fair market value for the real property, the State may provide compensation by functionally replacing the publicly owned real property with another facility which will provide equivalent utility.

(b) *Federal participation.* Federal-aid funds may participate in functional replacement costs only if:

(1) Functional replacement is permitted under State law and the STD elects to provide it.

(2) The property in question is in public ownership and use.

(3) The replacement facility will be in public ownership and will continue the public use function of the acquired facility.

(4) The State has informed the agency owning the property of its right to an estimate of just compensation based on an appraisal of fair market value and of the option to choose either just compensation or functional replacement.

(5) The FHWA concurs in the STD determination that functional replacement is in the public interest.

(6) The real property is not owned by a utility or railroad.

(c) *Federal land transfers.* Use of this section for functional replacement of real property in Federal ownership shall be in accordance with Federal land transfer provisions in subpart F of this part.

(d) *Limits upon participation.* Federal-aid participation in the costs of functional replacement are limited to costs which are actually incurred in the replacement of the acquired land and/or facility and are:

(1) Costs for facilities which do not represent increases in capacity or betterments, except for those necessary to replace utilities, to meet legal, regulatory, or similar requirements, or to meet reasonable prevailing standards; and

(2) Costs for land to provide a site for the replacement facility.

(e) *Procedures.* When a State determines that payments providing for

functional replacement of public facilities are allowable under State law, the State will incorporate within the State's ROW operating manual full procedures covering review and oversight that will be applied to such cases.

§ 710.511 Transportation enhancements.

(a) *General.* Section 133(b) (8) of title 23 of the United States Code authorizes the expenditure of surface transportation funds for transportation enhancement activities (TEA). Transportation enhancement activities which involve the acquisition, management, and disposition of real property, and the relocation of families, individuals, and businesses, are governed by the general requirements of the Federal-aid program found in titles 23 and 49 of the Code of Federal Regulations (CFR), except as specified in paragraph (b)(3) of this section.

(b) *Requirements.* (1) Displacements for TEA are subject to the Uniform Act.

(2) Acquisitions for TEA are subject to the Uniform Act except as provided in paragraphs (b)(3), (b)(4), and (b)(5) of this section.

(3) Entities acquiring real property for TEA who lack the power of eminent domain may comply with the Uniform Act by meeting the limited requirements under 49 CFR 24.101(a)(2).

(4) The requirements of the Uniform Act do not apply when real property acquired for a TEA was purchased from a third party by a qualified conservation organization, and—

(i) The conservation organization is not acting on behalf of the agency receiving TEA or other Federal-aid funds, and

(ii) There was no Federal approval of property acquisition prior to the involvement of the conservation organization. [“Federal approval of property acquisition” means the date of the approval of the environmental document or project authorization/agreement, whichever is earlier. “Involvement of the conservation organization” means the date the organization makes a legally binding offer to acquire a real property interest, including an option to purchase, in the property.]

§ 710.513

(5) When a qualified conservation organization acquires real property for a project receiving Federal-aid highway funds on behalf of an agency with eminent domain authority, the requirements of the Uniform Act apply as if the agency had acquired the property itself.

(6) When, subsequent to Federal approval of property acquisition, a qualified conservation organization acquires real property for a project receiving Federal-aid highway funds, and there will be no use or recourse to the power of eminent domain, the limited requirements of 49 CFR 24.101(a)(2) apply.

(c) *Property management.* Real property acquired with TEA funds shall be managed in accordance with the property management requirements provided in subpart D of this part. Any use of the property for purposes other than that for which the TEA funds were provided must be consistent with the continuation of the original use. When the original use of the real property is converted by sale or lease to another use inconsistent with the original use, the STD shall assure that the fair market value or rent is charged and the proceeds reapplied to projects eligible under title 23 of the United States Code.

§ 710.513 Environmental mitigation.

(a) The acquisition and maintenance of land for wetlands mitigation, wetlands banking, natural habitat, or other appropriate environmental mitigation is an eligible cost under the Federal-aid program. FHWA participation in wetland mitigation sites and other mitigation banks is governed by 23 CFR part 777.

(b) Environmental acquisitions or displacements by both public agencies and private parties are covered by the Uniform Act when they are the result of a program or project undertaken by a Federal agency or one that receives Federal financial assistance. This includes real property acquired for a wetland bank, or other environmentally related purpose, if it is to be used to mitigate impacts created by a Federal-aid highway project.

23 CFR Ch. I (4–1–03 Edition)

Subpart F—Federal Assistance Programs

§ 710.601 Federal land transfer.

(a) The provisions of this subpart apply to any project undertaken with funds for the National Highway System. When the FHWA determines that a strong Federal transportation interest exists, these provisions may also be applied to highway projects that are eligible for Federal-aid under Chapters 1 and 2 of title 23, of the United States Code, and to highway-related transfers that are requested by a State in conjunction with a military base closure under the Defense Base Closure and Realignment Act of 1990 (Public Law 101–510, 104 Stat. 1808, as amended).

(b) Sections 107(d) and 317 of title 23, of the United States Code provide for the transfer of lands or interests in lands owned by the United States to an STD or its nominee for highway purposes.

(c) The STD may file an application with the FHWA, or can make application directly to the land-owning agency if the land-owning agency has its own authority for granting interests in land.

(d) Applications under this section shall include the following information:

(1) The purpose for which the lands are to be used;

(2) The estate or interest in the land required for the project;

(3) The Federal-aid project number or other appropriate references;

(4) The name of the Federal agency exercising jurisdiction over the land and identity of the installation or activity in possession of the land;

(5) A map showing the survey of the lands to be acquired;

(6) A legal description of the lands desired; and

(7) A statement of compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4332, *et seq.*) and any other applicable Federal environmental laws, including the National Historic Preservation Act (16 U.S.C. 470(f)), and 23 U.S.C. 138.

(e) If the FHWA concurs in the need for the transfer, the land-owning agency will be notified and a right-of-entry requested. The land-owning agency

shall have a period of four months in which to designate conditions necessary for the adequate protection and utilization of the reserve or to certify that the proposed appropriation is contrary to the public interest or inconsistent with the purposes for which such land or materials have been reserved. The FHWA may extend the four-month reply period at the timely request of the land-owning agency for good cause.

(f) Deeds for conveyance of lands or interests in lands owned by the United States shall be prepared by the STD and certified by an attorney licensed within the State as being legally sufficient. Such deeds shall contain the clauses required by the FHWA and 49 CFR 21.7(a)(2). After the STD prepares the deed, it will submit the proposed deed with the certification to the FHWA for review and execution.

(g) Following execution, the STD shall record the deed in the appropriate land record office and so advise the FHWA and the concerned agency.

(h) When the need for the interest acquired under this subpart no longer exists, the STD must restore the land to the condition which existed prior to the transfer and must give notice to the FHWA and to the concerned Federal agency that such interest will immediately revert to the control of the Federal agency from which it was appropriated or to its assigns. Alternative arrangements may be made for the sale or reversion or restoration of the lands no longer required as part of a memorandum of understanding or separate agreement.

§ 710.603 Direct Federal acquisition.

(a) The provisions of this section apply to any land and or improvements needed in connection with any project on the Interstate System, defense access roads, public lands highways, park roads, parkways, Indian reservation roads, and projects performed by the FHWA in cooperation with Federal and State agencies. For projects on the Interstate System and defense access roads, the provisions of this part are applicable only where the State is unable to acquire the required right-of-way or is unable to obtain possession with sufficient promptness.

(b) To enable the FHWA to make the necessary finding to proceed with the acquisition of the rights-of-way, the STDs written application for Federal acquisition shall include:

(1) Justification for the Federal acquisition of the lands or interests in lands;

(2) The date the FHWA authorized the STD to commence right-of-way acquisition, the date of the project agreement and a statement that the agreement contains the provisions required by 25 U.S.C. 111;

(3) The necessity for acquisition of the particular lands under request;

(4) A statement of the specific interests in lands to be acquired, including the proposed treatment of control of access;

(5) The STDs intentions with respect to the acquisition, subordination, or exclusion of outstanding interests, such as minerals and utility easements, in connection with the proposed acquisition;

(6) A statement on compliance with the provisions of part 771 of this chapter;

(7) Adequate legal descriptions, plats, appraisals, and title data;

(8) An outline of the negotiations which have been conducted by the STD with landowners;

(9) An agreement that the STD will pay its pro rata share of costs incurred in the acquisition of, or the attempt to acquire rights-of-way; and

(10) A statement that assures compliance with the applicable provisions of the Uniform Act. (42 U.S.C. 4601, *et seq.*)

(c) If the landowner tenders a right-of-entry or other right of possession document required by State law any time before the FHWA makes a determination that the STD is unable to acquire the rights-of-way with sufficient promptness, the STD is legally obligated to accept such tender and the FHWA may not proceed with Federal acquisition.

(d) If the STD obtains title to a parcel prior to the filing of the Declaration of Taking, it shall notify the FHWA and immediately furnish the appropriate U.S. Attorney with a disclaimer together with a request that the action against the landowner be

dismissed (ex parte) from the proceeding and the estimated just compensation deposited into the registry of the court for the affected parcel be withdrawn after the appropriate motions are approved by the court.

(e) When the United States obtains a court order granting possession of the real property, the FHWA shall authorize the STD to take over supervision of the property. The authorization shall include, but need not be limited to, the following:

(1) The right to take possession of unoccupied properties;

(2) The right to give 90 days notice to owners to vacate occupied properties and the right to take possession of such properties when vacated;

(3) The right to permit continued occupancy of a property until it is required for construction and, in those instances where such occupancy is to be for a substantial period of time, the right to enter into rental agreements, as appropriate, to protect the public interest;

(4) The right to request assistance from the U.S. Attorney in obtaining physical possession where an owner declines to comply with the court order of possession;

(5) The right to clear improvements and other obstructions;

(6) Instructions that the U.S. Attorney be notified prior to actual clearing, so as to afford him an opportunity to view the lands and improvements, to obtain appropriate photographs, and to secure appraisals in connection with the preparation of the case for trial;

(7) The requirement for appropriate credits to the United States for any net salvage or net rentals obtained by the State, as in the case of right-of-way acquired by the State for Federal-aid projects; and

(8) Instructions that the authority granted to the STD is not intended to preclude the U.S. Attorney from taking action, before the STD has made arrangements for removal, to reach a settlement with the former owner which would include provision for removal.

(f) If the Federal Government initiates condemnation proceedings against the owner of real property in a Federal court and the final judgment is that the Federal agency cannot acquire the

real property by condemnation, or the proceeding is abandoned, the court is required by law to award such a sum to the owner of the real property that in the opinion of the court provides reimbursement for the owner's reasonable costs, disbursements, and expenses, including reasonable attorney, appraisal, and engineering fees, actually incurred because of the condemnation proceedings.

(g) As soon as practicable after the date of payment of the purchase price or the date of deposit in court of funds to satisfy the award of the compensation in a Federal condemnation, the FHWA shall reimburse the owner to the extent deemed fair and reasonable, the following costs:

(1) Recording fees, transfer taxes, and similar expenses incidental to conveying such real property to the United States;

(2) Penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering such real property; and

(3) The pro rata portion of real property taxes paid which are allocable to a period subsequent to the date of vesting title in the United States or the effective date of possession, whichever is the earlier.

(h) The lands or interests in lands, acquired under this section, will be conveyed to the State or the appropriate political subdivision thereof, upon agreement by the STD, or said subdivision to:

(1) Maintain control of access where applicable;

(2) Accept title thereto;

(3) Maintain the project constructed thereon;

(4) Abide by any conditions which may set forth in the deed; and

(5) Notify the FHWA at the appropriate time that all the conditions have been performed by the State.

(i) The deed from the United States to the State, or to the appropriate political subdivision thereof, shall include the conditions required by 49 CFR part 21. The deed shall be recorded by the grantee in the appropriate land record office, and the FHWA shall be advised of the recording date.
